

The perfect partner: Ondoro in warm grey brown

Warm grey brown is now a staple in the world of fashion and design. Hardly any other colour can be combined with such versatility and class. It goes well with both powdery soft tones as well as powerful tones such as berry red and sea green. However, there is no escaping the fact that: although grey brown is a trend colour, it is still timeless and classic all the same. For those for whom it is important for their writing instrument to have a stylish interaction with other accessories, such as a timer or writing folder, then they will find the perfect match in the new Ondoro.

The twist pencil features a 0.7 mm shatter-proof lead and a replaceable eraser under the cap. The ballpoint pen has a twist mechanism to extend and retract the black magnum refill in line width B. The rollerball pen with metal clip and a cap to fit both ends is ideal for making quick notes as the writing does not smudge thanks to its quick-drying ink. The fountain pen is at the heart of the range. With its cartridge/converter system it can be refilled with ink from the bottle or with standard cartridges. Smoothly gliding over paper, the high-quality stainless-steel fountain pen is available in nib sizes M, F, EF and B.
